Section I. Instructions to Bidders

A. General

1. Introduction

- 1.1 The Public Body indicated in the Bid Data Sheet (BDS) is the Contracting Authority for this procurement process and it is bound by the rules governing public procurement in the Federal Democratic Republic of Ethiopia. It has the powers and duties to conclude a Contract for the supply and installation of the Information Systems (IS). Accordingly, this procurement process is being conducted in accordance with the recent editions of the Ethiopian Federal Government Procurement and Property Administration Proclamation and Public Procurement Directive under the procurement method indicated in the BDS.
- 1.2 By the issue of this Bidding Document the Public Body invites interested Candidates to submit their bids with a view to entering into Contract with the Public Body for the supply and installation of the Information Systems (IS) which general description is provided in the BDS. Information Systems (IS) that are subject of this procurement process are more particularly specified in Section 6, Statement of Requirement upon the basis of the information supplied in and in accordance with this Bidding Document.
- 1.3 The procurement reference number and number of lots of this Bidding Document are provided in the BDS. If Bids are being invited for individual contracts (lots) the Bidder may submit a Bid for one lot only, several or all of the lots. Each lot will form a separate contract and the quantities indicated for different lots will be indivisible. The Bidder must offer the whole of the quantity or quantities indicated for each lot.
- 1.4 Each Bidder may only submit one Bid, either individually or as a partner in joint venture. A Bidder who submits or participates in more than one Bid (other than as a subcontractor or in cases of alternatives that have been permitted or requested) will cause all the Bids with the Bidder's participation to be disqualified.
- 1.5 This Section 1, Instructions to Bidders shall not form a part of the Contract. These instructions are intended to assist prospective Bidders in the preparation of their Bids.
- 1.6 Issuance of this Bidding Document does not in any way obligate the Public Body to award a Contract.
- 1.7 The Public Body retains ownership of all bids submitted in response to this Bidding Document. Consequently, Bidders have no right to have their bids returned to them except late bids.
- 1.8 In submitting a bid, the Bidder accepts in full and without restriction this Bidding Document as the sole basis of this procurement procedure, whatever his own conditions of sale may be, which he hereby waives. Bidders are expected to examine carefully and comply with all instructions, forms, contract provisions and specifications contained in this Bidding Document. Failure to submit a bid containing all the required information and documentation within the deadline specified may lead to the rejection of the bid. No account can be taken of any reservation in the bid as regards the Bidding Document; any reservation will result in the immediate rejection of the bid without further evaluation.
- 1.9 The permitted method of communication shall be in writing. Throughout these Bidding Documents the term "in writing" means communicated in written form and delivered against receipt.

2. Source of Funds

- 2.1 The Public Body has an approved budget toward the cost of the procurement described in the

Section 6, Statement of Requirement. The Public Body intends to use these funds to place a Contract for which these Bidding Documents are issued.

- 2.2 Payments will be made directly by the Public Body and will be subject in all respects to the terms and conditions of the resulting Contract placed by the Public Body.

3. Fraud, Corruption and Complaints Provisions

- 3.1 The Government of the Federal Democratic Republic of Ethiopia (herein after called the Government) represented by the Public Procurement and Property Administration Agency (herein after called the Agency) requires Contracting Authorities, as well as bidders to observe the highest standards of ethics during the procurement and the execution of contracts. In pursuance of this policy, the Government:

- (a). Defines, for the purposes of this provision, the terms set forth below as follows:

 - acts intended to materially impede the exercise of inspection and audit rights provided for under ITB Clause 3.5 below.

- (b). Will reject a recommendation for award if it determines that the Bidder recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for the contract in question;

- (c). Will debar a Bidder from participation in public procurement for a specified period of time if it at any time determines the Bidder has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for, or in executing, a contract. Any complaint must be submitted in writing to the head of the Public Body, within five working days from the date the Bidder knew, or should have known, of the circumstances giving rise to the complaint. If the head of the Public Body does not issue a decision within ten working days after submission of complaint, or the candidate or the Bidder is not satisfied with the decision, it may submit a complaint to the Board within five working days from the date on which the decision has been or should have been communicated to the candidate or the Bidder by the Public Body. - 13.3 The Supplier may from time to time propose additions to or deletions from any such list. In the event the Supplier requires the supply or services of sub-contractors that are not included in the List of Approved Subcontractors, the Supplier shall obtain the prior written approval and clearance of Public Body for all sub-contractors. The supply or services to be sub-contracted and the identity of the subcontractors shall be notified to the Public Body. 14. Changes in Contract Elements

14.1 Introducing a Change

- (a). Subject to GCC Clauses 14.2(e) and 14.2(g), the Public Body shall have the right to propose, and subsequently require, the Project Manager to order the Supplier from time to time during the performance of the Contract to make any change, modification, addition, or deletion to, in, or from the System (interchangeably called “Change”), provided that such Change falls within the general scope of the System, does not constitute unrelated work, and is technically practicable, taking into account both the state of advancement of the System and the technical compatibility of the Change envisaged with the nature of the System as originally specified in the Contract. A Change may involve, but is not restricted to, the substitution of updated Information Technologies and related Services in accordance with GCC Clause 49 (Product Upgrades).
- (b). The Supplier may from time to time during its performance of the Contract propose to the Public Body (with a copy to the Project Manager) any Change that the Supplier considers necessary or desirable to improve the quality or efficiency of the System. The Public Body may at its discretion approve or reject any Change proposed by the Supplier.
- (c). Notwithstanding GCC Clauses 14.1(a) and 14.1(b), no change made necessary because of any default of the Supplier in the performance of its obligations under the Contract shall be deemed to be a Change, and such change shall not result in any adjustment of the Contract Price or the Time for Achieving Operational Acceptance.
- (d). The procedure on how to proceed with and execute Changes is specified in GCC Clauses 14.2 and 14.3, and further details and sample forms are provided in the Bidding Documents.
- (e). Moreover, the Public Body and Supplier will agree, during development of the Project Plan, to a date prior to the scheduled date for Operational Acceptance, after which the Technical Requirements for the System shall be “frozen.” Any Change initiated after this time will be dealt with after Operational Acceptance.

14.2 Changes Originating from Public Body

- (a). If the Public Body proposes a Change pursuant to GCC Clauses 14.1(a), it shall send to the Supplier a "Request for Change Proposal," requiring the Supplier to prepare and furnish to the Project Manager as soon as reasonably practicable a "Change Proposal," which shall include the following:
 - (i) brief description of the Change;
 - (ii) impact on the Time for Achieving Operational Acceptance;
 - (iii) detailed estimated cost of the Change;
 - (iv) effect on Functional Guarantees (if any);
 - (v) effect on any other provisions of the Contract.
- (b). Prior to preparing and submitting the "Change Proposal," the Supplier shall submit to the Project Manager a "Change Estimate Proposal," which shall be an estimate of the cost of preparing the Change Proposal, plus a first approximation of the suggested approach and cost for implementing the changes. Upon receipt of the Supplier's Change Estimate Proposal, the Public Body shall do one of the following:
 - (i) accept the Supplier's estimate with instructions to the Supplier to proceed with the preparation of the Change Proposal;
 - (ii) advise the Supplier of any part of its Change Estimate Proposal that is unacceptable and request the Supplier to review its estimate;
 - (iii) advise the Supplier that the Public Body does not intend to proceed with the Change.
- (c). Upon receipt of the Public Body's instruction to proceed under GCC Clause 14.2(b)(i), the Supplier shall, with proper expedition, proceed with the preparation of the Change Proposal, in accordance with GCC Clause 14.2(a). The Supplier, at its discretion, may specify a validity period for the Change Proposal, after which if the Public Body and Supplier has not reached agreement in accordance with GCC Clause 14.2(f), then GCC Clause 14.2(g) shall apply.
- (d). The pricing of any Change shall, as far as practicable, be calculated in accordance with the rates and prices included in the Contract. If the nature of the Change is such that the Contract rates and prices are inequitable, the parties to the Contract shall agree on other specific rates to be used for valuing the Change.
- (e). If before or during the preparation of the Change Proposal it becomes apparent that the aggregate impact of compliance with the Request for Change Proposal and with all other Change Orders that have already become binding upon the Supplier under this GCC Clause 14 would be to increase or decrease the Contract Price by more than fifteen (15) percent, the Supplier may give a written notice of objection to this Request for Change Proposal prior to furnishing the Change Proposal. If the Public Body accepts the Supplier's objection, the Public Body shall withdraw the proposed Change and shall notify the Supplier in writing of its acceptance.

The Supplier's failure to so object to a Request for Change Proposal shall neither affect its right to object to any subsequent requested Changes or Change Orders, nor affect its right to take into account, when making such subsequent objection, the percentage increase or decrease in the Contract Price that any Change not objected to by the Supplier represents.
- (f). Upon receipt of the Change Proposal, the Public Body and the Supplier shall mutually agree upon all matters contained in the Change Proposal. Within fourteen (14) days after such agreement, the Public Body shall, if it intends to proceed with the Change, issue the Supplier a Change Order. If the Public Body is unable to reach a decision within fourteen (14) days, it shall notify the Supplier with details of when the Supplier can expect a decision. If the Public

Body decides not to proceed with the Change for whatever reason, it shall, within the said period of fourteen (14) days, notify the Supplier accordingly. Under such circumstances, the Supplier shall be entitled to reimbursement of all costs reasonably incurred by it in the preparation of the Change Proposal, provided that these do not exceed the amount given by the Supplier in its Change Estimate Proposal submitted in accordance with GCC Clause 14.2.(b).

- (g). If the Public Body and the Supplier cannot reach agreement on the price for the Change, an equitable adjustment to the Time for Achieving Operational Acceptance, or any other matters identified in the Change Proposal, the Change will not be implemented. However, this provision does not limit the rights of either party under GCC Clause 23 (Settlement of Disputes).

14.3 Changes Originating from Supplier

- 14.4 If the Supplier proposes a Change pursuant to GCC Clause 14.1.(b), the Supplier shall submit to the Project Manager a written "Application for Change Proposal," giving reasons for the proposed Change and including the information specified in GCC Clause 14.2.(a). Upon receipt of the Application for Change Proposal, the parties shall follow the procedures outlined in GCC Clauses 14.2(f) and 14.2(g). However, should the Public Body choose not to proceed or the Public Body and the Supplier cannot come to agreement on the change during any validity period that the Supplier may specify in its Application for Change Proposal, the Supplier shall not be entitled to recover the costs of preparing the Application for Change Proposal, unless subject to an agreement between the Public Body and the Supplier to the contrary.

15. Change in Laws and Regulations

As soon as reasonably practicable after receipt of such notice and supporting particulars of the claim, the Public Body and the Supplier shall agree upon the period of such extension. In the event that the Supplier does not accept the Public Body's estimate of a fair and reasonable time extension, the Supplier shall be entitled to refer the matter to the provisions for the Settlement of Disputes pursuant to GCC Clause 23.
- 54.3 The Supplier shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract.

55. Performance Measurement

- 55.1 The Public Body shall ascertain whether the Supplier's provision of the Information Technologies, Materials, and other Goods in question meets any performance criteria as specified in the Statement of Requirements or, if the criteria are not so specified, meets the standards of a professional supplier of the Information Technologies, Materials, and other Goods. On or before the fifteenth working day of each calendar month during the Contract Period and within 14 days after termination of the Contract, the Public Body may:
- (a). Each Performance Notice issued by the Public Body shall include a proposed rebate of the Contract Price commensurate to the under-performance of the Supplier as recorded in the Performance Notice;
 - (b). If the Supplier disputes any matter referred to in any Performance Notice and/or the proposed rebate of the Contract Price, the Supplier may raise this objection with the Public Body and if this matter is not resolved within 7 days the matter shall be referred to the Dispute Resolution Procedure; and
 - (c). If the Supplier has not risen any objection to the Performance Notice within 7 days of receipt (or such other period as agreed between the Parties) then that Performance Notice shall be deemed to have been accepted by the Supplier and the rebate on the Contract Price referred to therein shall become immediately effective.
- 55.2 The Public Body's rights under this Clause are without prejudice to any other rights or remedies the Public Body may be entitled to.
- 55.3 If required by the Public Body, the Parties shall co-operate in sharing information and developing performance measurement criteria with the object of improving the Parties' efficiency. Any such agreements shall be fully recorded in writing by the Public Body.

G. Guaranties and Liabilities

56. Operational Acceptance Time Guarantee

- 56.1 The Supplier guarantees that it shall complete the supply, Installation, Commissioning, and achieve Operational Acceptance of the System (or Subsystems, pursuant to the SCC for GCC Clause 53.3) within the time periods specified in the Implementation Schedule in the Technical Requirements Section and/or the Agreed and Finalized Project Plan pursuant to GCC Clause 28.2,

or within such extended time to which the Supplier shall be entitled under GCC Clause 54 (Extension of Time for Achieving Operational Acceptance).

- 56.2 If the Supplier fails to supply, install, commission, and achieve Operational Acceptance of the System (or Subsystems pursuant to the SCC for GCC Clause 53.3) within the time for achieving Operational Acceptance specified in the Implementation Schedule in the Technical Requirement or the Agreed and Finalized Project Plan, or any extension of the time for achieving Operational Acceptance previously granted under GCC Clause 54 (Extension of Time for Achieving Operational Acceptance), the Supplier shall pay to the Public Body liquidated damages at the rate specified in the GCC Clause 24.1(a) as a percentage of the Contract Price, or the relevant part of the Contract Price if a Subsystem has not achieved Operational Acceptance. The aggregate amount of such liquidated damages shall in no event exceed the amount specified in the GCC Clause 24.1(b) ("the Maximum"). Once the Maximum is reached, the Public Body may consider termination of the Contract, pursuant to GCC Clause 20.6(a).
- 56.3 Unless otherwise specified in the SCC, liquidated damages payable under GCC Clause 56.2 shall apply only to the failure to achieve Operational Acceptance of the System (and Subsystems) as specified in the Implementation Schedule in the Technical Requirements and/or Agreed and Finalized Project Plan. This GCC Clause 56.3 shall not limit, however, any other rights or remedies the Public Body may have under the Contract for other delays.
- 56.4 If liquidated damages are claimed by the Public Body for the System (or Subsystem), the Supplier shall have no further liability whatsoever to the Public Body in respect to the Operational Acceptance time guarantee for the System (or Subsystem). However, the payment of liquidated damages shall not in any way relieve the Supplier from any of its obligations to complete the System or from any other of its obligations and liabilities under the Contract.

57. Defect Liability

- 57.1 The Supplier warrants that the System, including all Information Technologies, Materials, and other Goods supplied and Services provided, shall be free from defects in the design, engineering, Materials, and workmanship that prevent the System and/or any of its components from fulfilling the Technical Requirements or that limit in a material fashion the performance, reliability, or extensibility of the System and/or Subsystems. Exceptions and/or limitations, if any, to this warranty with respect to Software (or categories of Software), shall be as specified in the SCC. Commercial warranty provisions of products supplied under the Contract shall apply to the extent that they do not conflict with the provisions of this Contract.
- 57.2 The Supplier also warrants that the Information Technologies, Materials, and other Goods supplied under the Contract are new, unused, and incorporate all recent improvements in design that materially affect the System's or Subsystem's ability to fulfill the Technical Requirements.
- 57.3 In addition, the Supplier warrants that:
- (i) all Goods components to be incorporated into the System form part of the Supplier's and/or Subcontractor's current product lines;
 - (ii) they have been previously released to the market; and
 - (iii) those specific items identified in the SCC (if any) have been in the market for at least the minimum periods specified in the SCC.
- 57.4 The Warranty Period shall commence from the date of Operational Acceptance of the System (or of any major component or Subsystem for which separate Operational Acceptance is provided for in the Contract) and shall extend for the length of time specified in the SCC.

- 57.5 If during the Warranty Period any defect as described in GCC Clause 57.1 should be found in the design, engineering, Materials, and workmanship of the Information Technologies and other Goods supplied or of the Services provided by the Supplier, the Supplier shall promptly, in consultation and agreement with the Public Body regarding appropriate remedying of the defects, and at its sole cost, repair, replace, or otherwise make good (as the Supplier shall, at its discretion, determine) such defect as well as any damage to the System caused by such defect. Any defective Information Technologies or other Goods that have been replaced by the Supplier shall remain the property of the Supplier.
- 57.6 The Supplier shall not be responsible for the repair, replacement, or making good of any defect or of any damage to the System arising out of or resulting from any of the following causes:
- (a). improper operation or maintenance of the System by the Public Body;
 - (b). normal wear and tear;
 - (c). use of the System with items not supplied by the Supplier, unless otherwise identified in the Technical Requirements, or approved by the Supplier; or
 - (d). modifications made to the System by the Public Body, or a third party, not approved by the Supplier.
- 57.7 The Supplier's obligations under this GCC Clause 57 shall not apply to:
- (a). any materials that are normally consumed in operation or have a normal life shorter than the Warranty Period; or
 - (b). any designs, specifications, or other data designed, supplied, or specified by or on behalf of the Public Body or any matters for which the Supplier has disclaimed responsibility, in accordance with GCC Clause 45.1.(b).
- 57.8 The Public Body shall give the Supplier a notice promptly following the discovery of such defect, stating the nature of any such defect together with all available evidence. The Public Body shall afford all reasonable opportunity for the Supplier to inspect any such defect. The Public Body shall afford the Supplier all necessary access to the System and the site to enable the Supplier to perform its obligations under this GCC Clause 56.
- 57.9 The Supplier may, with the consent of the Public Body, remove from the site any Information Technologies and other Goods that are defective, if the nature of the defect, and/or any damage to the System caused by the defect, is such that repairs cannot be expeditiously carried out at the site. If the repair, replacement, or making good is of such a character that it may affect the efficiency of the System, the Public Body may give the Supplier notice requiring that tests of the defective part be made by the Supplier immediately upon completion of such remedial work, whereupon the Supplier shall carry out such tests.
- If such part fails the tests, the Supplier shall carry out further repair, replacement, or making good (as the case may be) until that part of the System passes such tests. The tests shall be agreed upon by the Public Body and the Supplier.
- 57.10 If the Supplier fails to commence the work necessary to remedy such defect or any damage to the System caused by such defect within the time period specified in the SCC, the Public Body may, following notice to the Supplier, proceed to do such work or contract a third party (or parties) to do such work, and the reasonable costs incurred by the Public Body in connection with such work shall be paid to the Public Body by the Supplier or may be deducted by the Public Body from any monies due the Supplier or claimed under the Performance Security.
- 57.11 If the System or Subsystem cannot be used by reason of such defect and/or making good of such defect, the Warranty Period for the System shall be extended by a period equal to the period

during which the System or Subsystem could not be used by the Public Body because of such defect and/or making good of such defect.

- 57.12 Items substituted for defective parts of the System during the Warranty Period shall be covered by the Defect Liability Warranty for the remainder of the Warranty Period applicable for the part replaced or three (3) months, whichever is greater.
- 57.13 At the request of the Public Body and without prejudice to any other rights and remedies that the Public Body may have against the Supplier under the Contract, the Supplier will offer all possible assistance to the Public Body to seek warranty services or remedial action from any subcontracted third-party producers or licensor of Goods included in the System, including without limitation assignment or transfer in favor of the Public Body of the benefit of any warranties given by such producers or licensors to the Supplier.

58. Functional Guarantees

- 58.1 The Supplier guarantees that, once the Operational Acceptance Certificate(s) has been issued, the System represents a complete, integrated solution to the Public Body's requirements set forth in the Technical Requirements and it conforms to all other aspects of the Contract. The Supplier acknowledges that GCC Clause 53 regarding Commissioning and Operational Acceptance governs how technical conformance of the System to the Contract requirements will be determined.
- 58.2 If, for reasons attributable to the Supplier, the System does not conform to the Technical Requirements or does not conform to all other aspects of the Contract, the Supplier shall at its cost and expense make such changes, modifications, and/or additions to the System as may be necessary to conform to the Technical Requirements and meet all functional and performance standards. The Supplier shall notify the Public Body upon completion of the necessary changes, modifications, and/or additions and shall request the Public Body to repeat the Operational Acceptance Tests until the System achieves Operational Acceptance.
- 58.3 If the System (or Subsystem[s]) fails to achieve Operational Acceptance, the Public Body may consider termination of the Contract, pursuant to GCC Clause 20.6(a), and forfeiture of the Supplier's Performance Security in accordance with GCC Clause 42 in compensation for the extra costs and delays likely to result from this failure.

59. Intellectual Property Rights Warranty

- 59.1 The Supplier hereby represents and warrants that:
- (a). the System as supplied, installed, tested, and accepted;
 - (b). use of the System in accordance with the Contract; and
 - (c). copying of the Software and Materials provided to the Public Body in accordance with the Contract

do not and will not infringe any Intellectual Property Rights held by any third party and that it has all necessary rights or at its sole expense shall have secured in writing all transfers of rights and other consents necessary to make the assignments, licenses, and other transfers of Intellectual Property Rights and the warranties set forth in the Contract, and for the Public Body to own or exercise all Intellectual Property Rights as provided in the Contract. Without limitation, the Supplier shall secure all necessary written agreements, consents, and transfers of rights from its employees and other persons or entities whose services are used for development of the System.

60. Intellectual Property Rights Indemnity

- 60.1 The Supplier shall indemnify and hold harmless the Public Body and its employees and officers from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability), that the Public Body or its employees or officers may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights by reason of:
- (a). installation of the System by the Supplier or the use of the System, including the Materials, in the Federal Democratic Republic of Ethiopia, where the site is located;
 - (b). copying of the Software and Materials provided the Supplier in accordance with the Agreement; and
 - (c). sale of the products produced by the System in any country, except to the extent that such losses, liabilities, and costs arise as a result of the Public Body's breach of GCC Clause 59.2
- 60.2 Such indemnity shall not cover any use of the System, including the Materials, other than for the purpose indicated by or to be reasonably inferred from the Contract, any infringement resulting from the use of the System, or any products of the System produced thereby in association or combination with any other goods or services not supplied by the Supplier, where the infringement arises because of such association or combination and not because of use of the System in its own right.
- 60.3 Such indemnities shall also not apply if any claim of infringement:
- (a). is asserted by a parent, subsidiary, or affiliate of the Public Body's organization;
 - (b). is a direct result of a design mandated by the Public Body's Technical Requirements and the possibility of such infringement was duly noted in the Supplier's Bid; or
 - (c). results from the alteration of the System, including the Materials, by the Public Body or any persons other than the Supplier or a person authorized by the Supplier.
- 60.4 If any proceedings are brought or any claim is made against the Public Body arising out of the matters referred to in GCC Clause 59.1, the Public Body shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Public Body's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.
- If the Supplier fails to notify the Public Body within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Public Body shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Public Body within the twenty-eight (28) days, the Public Body shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Public Body shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.
- 60.5 The Public Body shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Supplier or its employees, officers, or Subcontractors may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided to the Supplier in connection with this Contract by the Public Body or any persons (other than the Supplier) contracted by the Public Body, except to the extent that such losses, liabilities, and costs arise as a

result of the Supplier's breach of GCC Clause 59.8

60.6 Such indemnity shall not cover:

- (a). any use of the design, data, drawing, specification, or other documents or materials, other than for the purpose indicated by or to be reasonably inferred from the Contract;
- (b). any infringement resulting from the use of the design, data, drawing, specification, or other documents or materials, or any products produced thereby, in association or combination with any other Goods or Services not provided by the Public Body or any other person contracted by the Public Body, where the infringement arises because of such association or combination and not because of the use of the design, data, drawing, specification, or other documents or materials in its own right

60.7 Such indemnities shall also not apply

- (a). if any claim of infringement is asserted by a parent, subsidiary, or affiliate of the Supplier's organization;
- (b). to the extent that any claim of infringement is caused by the alteration, by the Supplier, or any persons contracted by the Supplier, of the design, data, drawing, specification, or other documents or materials provided to the Supplier by the Public Body or any persons contracted by the Public Body.

60.8 If any proceedings are brought or any claim is made against the Supplier arising out of the matters referred to in GCC Clause 59.5, the Supplier shall promptly give the Public Body notice of such proceedings or claims, and the Public Body may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Public Body fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Public Body has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Public Body's request, afford all available assistance to the Public Body in conducting such proceedings or claim and shall be reimbursed by the Public Body for all reasonable expenses incurred in so doing

61. Limitation of Liability

61.1 Except in cases of criminal negligence or willful misconduct,

- (a). The Supplier shall not be liable to the Public Body, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the Supplier to pay liquidated damages to the Public Body and
- (b). The aggregate liability of the Supplier to the Public Body, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment, or to any obligation of the supplier to indemnify the Public Body with respect to patent infringement.

H. Risk distribution

62. Transfer of Ownership

62.1 With the exception of Software and Materials, the ownership of the Information Technologies and other Goods shall be transferred to the Public Body at the time of Delivery or otherwise under

terms that may be agreed upon and specified in the Contract Agreement.

- 62.2 Ownership and the terms of usage of the Software and Materials supplied under the Contract shall be governed by GCC Clause 26 (Copyright) and any elaboration in the Technical Requirements.
- 62.3 Any tools, patterns, materials, drawings, specifications and/or other data provided by the Public Body to the Supplier in connection with the Contract will at all times be at the Supplier's risk and remain the property of the Public Body and shall be delivered up to the Public Body immediately on request and are to be used by the Supplier solely for the purpose of completing the Purchase Order.
- 62.4 Any tools which the Supplier may construct or acquire specifically in connection with the Information Technologies and other Goods will remain the property of the Supplier unless it is agreed in writing that the property of the tools will be transferred to the Public Body upon payment by the Public Body of a charge

63. Care of the System

- 63.1 The Public Body shall become responsible for the care and custody of the System or Subsystems upon their Delivery. The Public Body shall make good at its own cost any loss or damage that may occur to the System or Subsystems from any cause from the date of Delivery until the date of Operational Acceptance of the System or Subsystems, pursuant to GCC Clause 53 (Commissioning and Operational Acceptance), excepting such loss or damage arising from acts or omissions of the Supplier, its employees, or subcontractors.
- 63.2 If any loss or damage occurs to the System or any part of the System by reason of:
 - (a). (insofar as they relate to the Federal Democratic Republic of Ethiopia where the Project Site is located) nuclear reaction, nuclear radiation, radioactive contamination, a pressure wave caused by aircraft or other aerial objects, or any other occurrences that an experienced contractor could not reasonably foresee, or if reasonably foreseeable could not reasonably make provision for or insure against, insofar as such risks are not normally insurable on the insurance market and are mentioned in the general exclusions of the policy of insurance taken out under GCC Clause 65;
 - (b). any use not in accordance with the Contract, by the Public Body or any third party;
 - (c). any use of or reliance upon any design, data, or specification provided or designated by or on behalf of the Public Body, or any such matter for which the Supplier has disclaimed responsibility in accordance with GCC Clause 45.1(b),

the Public Body shall pay to the Supplier all sums payable in respect of the System or Subsystems that have achieved Operational Acceptance, notwithstanding that the same be lost, destroyed, or damaged. If the Public Body requests the Supplier in writing to make good any loss or damage to the System thereby occasioned, the Supplier shall make good the same at the cost of the Public Body in accordance with GCC Clause 14. If the Public Body does not request the Supplier in writing to make good any loss or damage to the System thereby occasioned, the Public Body shall either request a change in accordance with GCC Clause 14, excluding the performance of that part of the System thereby lost, destroyed, or damaged, or, where the loss or damage affects a substantial part of the System, the Public Body shall terminate the Contract pursuant to GCC Clause 20.2.

- 63.3 The Public Body shall be liable for any loss of or damage to any Supplier's Equipment which the Public Body has authorized to locate within the Public Body's premises for use in fulfillment of Supplier's obligations under the Contract, except where such loss or damage arises from acts or

omissions of the Supplier, its employees, or subcontractors

64. Loss of or Damage to Property; Accident or Injury to Workers; Indemnification

- 64.1 The Supplier and each and every Subcontractor shall abide by the job safety, insurance, customs, and immigration measures prevalent and laws in force in the Federal Democratic Republic of Ethiopia.
- 64.2 Subject to GCC Clause 63.3, the Supplier shall indemnify and hold harmless the Public Body and its employees and officers from and against any and all losses, liabilities and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Public Body or its employees or officers may suffer as a result of the death or injury of any person or loss of or damage to any property (other than the System, whether accepted or not) arising in connection with the supply, installation, testing, and Commissioning of the System and by reason of the negligence of the Supplier or its Subcontractors, or their employees, officers or agents, except any injury, death, or property damage caused by the negligence of the Public Body, its contractors, employees, officers, or agents.
- 64.3 If any proceedings are brought or any claim is made against the Public Body that might subject the Supplier to liability under GCC Clause 63.2, the Public Body shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Public Body's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Supplier fails to notify the Public Body within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Public Body shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Public Body within the twenty-eight (28) day period, the Public Body shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Public Body shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.
- 64.4 The Public Body shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Supplier or its employees, officers, or Subcontractors may suffer as a result of the death or personal injury of any person or loss of or damage to property of the Public Body, other than the System not yet achieving Operational Acceptance, that is caused by fire, explosion, or any other perils, in excess of the amount recoverable from insurances procured under GCC Clause 65 (Insurances), provided that such fire, explosion, or other perils were not caused by any act or failure of the Supplier.
- 64.5 If any proceedings are brought or any claim is made against the Supplier that might subject the Public Body to liability under GCC Clause 63.4, the Supplier shall promptly give the Public Body notice of such proceedings or claims, and the Public Body may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Public Body fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Public Body has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Public Body's request, afford all available assistance to the Public Body in conducting such proceedings or claim and shall be reimbursed by the Public Body for all reasonable expenses incurred in so doing.

- 64.6 The party entitled to the benefit of an indemnity under this GCC Clause 63 shall take all reasonable measures to mitigate any loss or damage that has occurred. If the party fails to take such measures, the other party's liabilities shall be correspondingly reduced.

65. Insurances

- 65.1 The Supplier shall at its expense take out and maintain in effect, or cause to be taken out and maintained in effect, during the performance of the Contract, the insurance set forth below. The identity of the insurers and the form of the policies shall be subject to the approval of the Public Body, who should not unreasonably withhold such approval.

(a). Cargo Insurance During Transport

As applicable, 110 percent of the price of the Information Technologies and other Goods in a freely convertible currency, covering the Goods from physical loss or damage during shipment through receipt at the Project Site.

(b). Installation "All Risks" Insurance

As applicable, 110 percent of the price of the Information Technologies and other Goods covering the Goods at the site from all risks of physical loss or damage (excluding only perils commonly excluded under "all risks" insurance policies of this type by reputable insurers) occurring prior to Operational Acceptance of the System.

(c). Third-Party Liability Insurance

On terms as specified in the SCC, covering bodily injury or death suffered by third parties (including the Public Body's personnel) and loss of or damage to property (including the Public Body's property and any Subsystems that have been accepted by the Public Body) occurring in connection with the supply and installation of the Information System.

(d). Automobile Liability Insurance

In accordance with the statutory requirements prevailing in the Federal Democratic Republic of Ethiopia, covering use of all vehicles used by the Supplier or its Subcontractors (whether or not owned by them) in connection with the execution of the Contract.

(e). Other Insurance (if any), as specified in the SCC.

- 65.2 The Public Body shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 64.1, except for the Third-Party Liability, and the Supplier's Subcontractors shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 64.1 except for Cargo Insurance During Transport. All insurer's rights of subrogation against such co-insured for losses or claims arising out of the performance of the Contract shall be waived under such policies.

- 65.3 The Supplier shall deliver to the Public Body certificates of insurance (or copies of the insurance policies) as evidence that the required policies are in full force and effect.

- 65.4 The Supplier shall ensure that, where applicable, its Subcontractor(s) shall take out and maintain in effect adequate insurance policies for their personnel and vehicles and for work executed by them under the Contract, unless such Subcontractors are covered by the policies taken out by the Supplier.

- 65.5 If the Supplier fails to take out and/or maintain in effect the insurance referred to in GCC Clause 64.1, the Public Body may take out and maintain in effect any such insurance and may from time to time deduct from any amount due the Supplier under the Contract any premium that the Public Body shall have paid to the insurer or may otherwise recover such amount as a debt due from the Supplier.

- 65.6 Unless otherwise provided in the Contract, the Supplier shall prepare and conduct all and any claims made under the policies effected by it pursuant to this GCC Clause 64, and all monies payable by any insurers shall be paid to the Supplier. The Public Body shall give to the Supplier all such reasonable assistance as may be required by the Supplier in connection with any claim under the relevant insurance policies. With respect to insurance claims in which the Public Body's interest is involved, the Supplier shall not give any release or make any compromise with the insurer without the prior written consent of the Public Body. With respect to insurance claims in which the Supplier's interest is involved, the Public Body shall not give any release or make any compromise with the insurer without the prior written consent of the Supplier
